

Data Analyst

About the Role

The Analyst Research LLP is hiring for the role of data analyst. This is an exciting new role within the business created to help utilise existing data to improve our research product, inform our sales strategy, aid business management, and ultimately help deliver alpha to our clients.

This role will collaborate with the research, sales, and operations areas of the business. Work will be done independently and from the outset you will be responsible for identifying areas of improvement and communicating your work to the team. There is room for the successful candidate to shape and grow this role as needs and opportunities are identified.

Key responsibilities include:

- Collate our research consumption data into a single regular report
- Track and monitor client satisfaction
- Track and monitor research performance
- Produce regular client interaction reports
- Link multiple sources of internal and external data into single reports for business, research, and sales purposes

Relevant Skills, Knowledge, and Experience

The ideal candidate will have:

- >1 year experience in a role involving data sourcing, manipulation, and presentation
- Experience of ETL processes
- Experience with data visualisation tools
- Excellent academics in management systems, computer science, commerce or related disciplines
- Experience in analysing and presenting financial and non-financial performance data
- Ability to visualise and present data in a clear and engaging way
- Expertise in effectively communicating and expressing complex ideas and results
- Driven and entrepreneurial spirit, initiative, and ambition
- Experience with digital marketing analytics is an advantage

About Us

The Analyst Research LLP is a leading independent equity research provider, delivering differentiated stock recommendations to an exclusive group of clients comprising of a number of the world's leading mutual funds and hedge funds. We undertake fundamental company research using rigorous and diligent processes with a long-term investment horizon, setting aside short-term noise and market chatter. Our research is unrestricted by geography or sectors and we travel the world to uncover the best stock picks for our clients. Ultimately, we look for high-conviction longs that can at least double and shorts that can at least halve. Our business is expanding geographically and growing rapidly as we take advantage of industry change.

Training

We expect the appropriate candidate to be able to complete high-level analysis from day one. Any further tools or training needs will be considered.

How to Apply

We invite interested candidates to submit their CV and cover letter to recruitment@theanalyst.co.uk.
